

INTRODUCTION

McFinely Healthcare is a Private Limited Company founded by **Mr. Jeremiah O. Kebwaro** in the year 2014 with confidence and determination to improve Healthcare Service delivery both in Hospitals and Homecare units. He is a trained medical personnel, and has got substantial experience in the hospital furniture and medical devices industry. He is an approachable person, a good and valuable guide for the whole McFinely Healthcare team.

Our Company's main line is **Hospital Furniture and Medical equipment**. We attest to the fact that we are the most experienced and most professional manufacture of hospital furniture with excellent reputation in Kenya. Our products are made in a very strict quality control process to assure accuracy, strength and reliability with competitive prices. Whereas we got proof and certification to the same effect, our production and supply is driven by our philosophy of high quality, good customer service and technology innovation. We assure you that our products are far superior in quality to any other suppliers' at the same price level.

WHO WE ARE (ABOUT US)

ESTABLISHMENT & WORK

McFinely Healthcare Limited was incorporated in **2014**. The company has emerged as a significant force in the production of hospital furniture and supply of medical equipment, marketing both in Kenya and across the continent. We have more than **13 years** of experience in the development and production of such hospital furniture as manual & electric hospital beds, ICU beds, child beds, medical trolleys, chairs, bedside cabinets, patient stretchers, and assorted morgue furniture among others.

Whereas McFinely Healthcare Limited has emerged as a leader in various categories of our area of specialization; and besides our main line of business, we do engage in

structural engineering especially construction of hospitals and morgues among other similar activities. But above all, our core strength lies in our in-house procedure in undertaking a construction project and the research and development strategy in the production of differentiated hospital furniture products and commercializing the same through marketing infrastructure across the country and beyond.

Besides our in-house production, we also do import and supply medical equipment such as:

- I. Triage/nurse station Equipment.
- II. Minor procedure Equipment.
- III. Emergency/recovery Equipment.
- IV. Labor room Equipment.
- V. Neonatal room Equipment.
- VI. Operating theatre Equipment.
- VII. Intensive care unit (ICU).
- VIII. High dependance unit (HDU).
- IX. Dialysis equipment.
- X. Patient ward furniture/Equipment.
- XI. Diagnostic imaging Equipment.
- XII. Dental Equipment.
- XIII. Instruments Laboratory Equipment.

The company has gained significant advantage due to this diversified and specialized group activities and or endeavors. Headed by a team of professionals, each of the departments has utilized their own strengths across construction lines, workshop production and sourcing segments & geographies and know-how to make the company stronger and well entrenched.

Through scientific management complying with laid down standards; and by adopting advanced technology our company focuses on providing brand quality products that meet both Local and International Standards and Approval. And whereas our products are widely accepted in Kenya and the World, our quality is respected by both local and global clients; and this is testimonial of our supplies to leading locals and

multinationals. Our company is respected as a reliable and proven co-marketing partner, evident through our collaborative relationship and partnerships with globally renowned entities.

MISSION, VISION & CORE VALUES
